Plenum Rated

The PMA-245 is built with high-temperature components that enable years of trouble free performance. Some amplifiers are built with components that are rated at 85 degrees centigrade (185°F). Roemtech uses components rated at 105 degrees centigrade (221°F). In plenum areas, heat is the biggest enemy. That extra 36°F of protection can easily mean the difference between frequent service calls and years of trouble free performance. That's the Roemtech difference.

Impressive Power

With a true 45 watts of power, the PMA-245 will give you the audio clarity you need for your largest classrooms. In many environments, ambient background noise such as HVAC systems and hallway traffic is an issue. With the PMA-245, these issues won't overpower your sound system.

Superb Performance

The PMA-245 has been designed with full-range performance in mind. Most amplifiers in this category do not put a lot of emphasis on accurate frequency performance. Roemtech has a different view, delivering crystal clear audio while maintaining impressive bass response. The PMA-245 handles the entire audio spectrum with superb accuracy. Featuring the latest innovations in class A/B technology, you will experience top performance while staying on budget.

Specifications:

Power:	45watts @ 40hms
Freq. Response:	20Hz to 20kHz
Input 1:	Stereo RCA - mixable
Input 2:	Stereo 3.5mm - mixable
Outputs:	Stereo or Mono Bridgeable
Power Supply:	18V @ 3.5Amps - 63watts
Operating Temp:	-40F to +190F
Weight:	1.6 lbs (amp only)
Amp Dimensions:	5.45"w x 4.05"d x 1.65"h
Warranty:	3 year standard
